-
- Figure 1 displays a 3x3 grid of bar charts illustrating the percentage of countries achieving the Sustainable Development Goals (SDGs) by the year 2030. Each chart has a y-axis representing the percentage of countries (0 to 100%) and an x-axis labeled '2030'. The bars represent the percentage of countries that have achieved each of the 17 SDGs. The charts are arranged in a 3x3 grid, with the top row showing the highest achievement, the middle row showing moderate achievement, and the bottom row showing the lowest achievement. The bars are color-coded by SDG: 1 (blue), 2 (orange), 3 (green), 4 (red), 5 (purple), 6 (brown), 7 (pink), 8 (grey), 9 (olive), 10 (teal), 11 (light blue), 12 (light green), 13 (light orange), 14 (light purple), 15 (light brown), 16 (light pink), 17 (light grey). The top row shows that most countries have achieved 100% of the SDGs, while the bottom row shows that most countries have achieved 0% of the SDGs.
